

University of Iowa Hemodynamics Program

External Fellowship

The University of Iowa External Fellowship program was introduced in 2019 as an alternative to the traditional GME fellowship pathway. This program allows a faculty member to participate in a collaborative training program between University of Iowa Health Care and their institution. The sponsoring hospital will send their faculty to Iowa, and upon completion of the training, the skills gained will aid in the creation of a Neonatal Hemodynamics clinical program at their home institution.

When is the application deadline and when will I find out about my acceptance?

The external fellowship application is available year-round and interviews will be conducted on a case by case basis.

At least each fall, the Iowa Hemodynamics Program will contact our applicant pool and update individuals on their status.

The applicant will either a) start the process to begin training or b) receive notification that they continue to be on our prospective training list.

What equipment & support is needed from my institution?

Dedicated echo machine for the hemodynamics program to use
We recommend:
GE Vivid E90 or E95

Storage solution for saved scans that allow them to be measured offline and clinically accessible

We recommend:
EchoPAC for GE systems for sm/med sized programs
Viewpoint for large sized programs

Integration of HD consults and TNE orders into EMR
We recommend:
Ability for cardiology to overread TNE and have reports visible in EMR

What is needed from my Cardiology Department?

Teaching image acquisition for the entire protocol prior to visiting Iowa
**Identify a point person who will sign off on DOPS*

Core group of cardiologists to read/sign off TNE and be familiar with Iowa's protocol

Point person for collaboration between cardiology and HD when program established

Are there fees associated with this training?

The University of Iowa does not provide a salary for external fellows.

This specialty training requires a \$850 fee per month you train in Iowa.

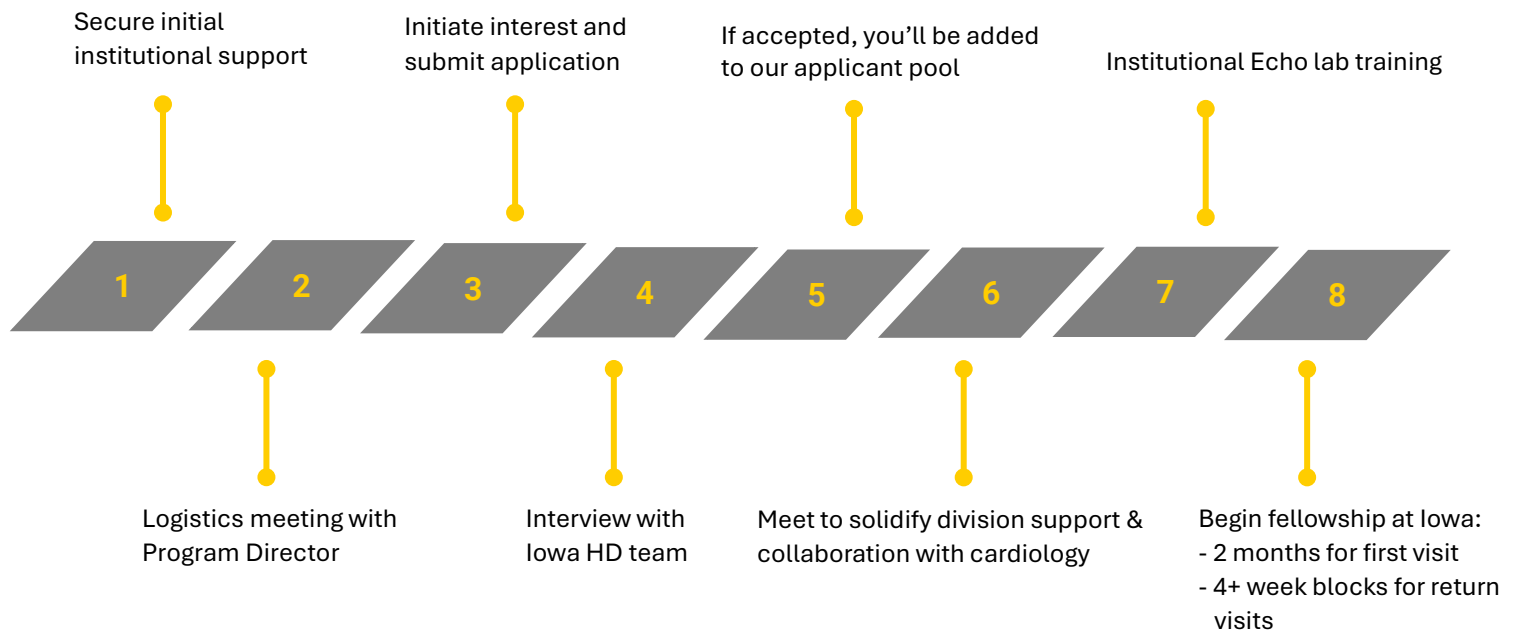

Costs incurred by the applicant include:
- IA Medical License Fees
- Malpractice insurance*
- Transportation
- Housing
- Food

A fellow will spend at least 4-6 months at Iowa
